PROJECTS

Personal Portfolio Website <i>GitHub: github.com/adarsh-seth/Portfolio</i>	July 2025 - Present
- Designed and built a fully responsive personal portfolio with a modern, dark-themed UI to showcase projects, skills, and services. - Implemented sticky navigation, smooth scrolling, and hover animations to improve on-page user experience across devices. - Integrated a working contact form using Formspree, enabling direct visitor messages without a backend server. - Actively maintaining and updating the project, iterating on features and content on an ongoing basis. Technologies and Tools used - HTML5, CSS3, JavaScript (ES6), Boxicons, Google Fonts, Formspree, Vercel.	

SKILLS

Languages: C, C++, JavaScript, Python (Basic)
